

KINDERGARTEN

As we look ahead at needed supplies for our Kindergarten students, we have prepared this list. By providing this to families early, we hope you will have the opportunity to use the school sales to gather these items. Thank you for helping your child to collect these items. With the exception of the clothing, these supplies will be used by all of the children; they do not need names on them. With limited storage space; individual pencil cases and notebooks, if purchased should be items for use at home to reinforce school skills. We realize that these supplies can be costly and want to let you know how much we appreciate for your help.
