

Ellis School

Grade 5

Social Studies

Geography

The World in Spatial Terms

- 5.1.6.1** Translate mental maps into appropriate graphics to display geographic information and answer geographic questions.
- 5.1.8.1** Compare relative advantages and disadvantages of using maps, globes, aerial and other photographs, satellite-produced images, and models to solve geographic problems.
- 5.1.6.2** Apply the spatial concepts of location, distance, direction, scale, movement, and region.
- 5.1.6.3** Recognize the relationship between productivity and wages, and between wages and standard of living.

Places and Regions

- 5.2.6.1** Describe the ways in which regions change.
- 5.2.8.1** Identify the types of regions.
- 5.2.6.2** Describe how places and regions preserve culture. *
- 5.2.8.2** Illustrate the connections among regions.
- 5.2.8.3** Describe how culture, technology, and experience affect perception of places and regions. *

Physical Systems

- 5.3.6.1** Describe how physical processes shape patterns in the physical environment. (science)
- 5.3.8.1** Recognize how physical processes influence the formation and distribution of resources.

- 5.3.6.2** Identify the components of Earth's physical system. (science)
- 5.3.6.3** Illustrate how physical processes produce change in ecosystems. (science)
- 5.3.6.4** Explain how human activities influence changes in ecosystems. (science)

Human Systems

- 5.4.6.1** Recognize the demographic structure of a population and its underlying causes. *
- 5.4.8.1** Describe ways in which physical and human regional systems are interconnected.
- 5.4.6.2** Know the types and historical patterns of human migration. *
- 5.4.8.2** Explain how cooperation and conflict among people contribute to political divisions of Earth's surface. *
- 5.4.6.3** Understand the effects of movement on the characteristics of places.
- 5.4.6.4** Analyze the spatial patterns of settlement. *
- 5.4.6.4** Know the functions, sizes, and spatial arrangements of settlement.*

Environment and Society

- 5.5.6.1** Understand the consequences of human modification of the physical environment.
- 5.5.8.1** Describe ways in which physical and human regional systems are interconnected.
- 5.5.6.2** Examine the role of technology in the human modification of the physical environment. *
- 5.5.8.2** Explain how cooperation and conflict among people contribute to political divisions of the Earth's surface. *
- 5.5.6.4** Assess why people have different viewpoints regarding resource use. *
